

# INGENIOUS FROM BIRTH A CSC TIMELINE

From the moment CSC was born on April 16, 1959, ingenuity has been a driving force behind our success. Read our five decades of milestones below.\*

View an interactive version of this timeline at [www.csc.com/timeline](http://www.csc.com/timeline).

## 1959

### The Beginning

- April 16, 1959** Roy Nutt and Fletcher Jones found Computer Sciences Corporation (CSC).
- May 1959** Honeywell hires CSC (our first client) to develop a business-language compiler, called FACT.

## 1960s

### Large Systems Software and the U.S. Government

- May 1961** CSC signs its first government contract, with NASA's Jet Propulsion Laboratory.
- April 1962** Annual revenues reach \$1 million.
- June 1962** CSC opens its first service bureau, with the purchase of a \$3.5 million computer - ranked as one of the largest and fastest at the time - offering 'computing time' over phone lines.
- May 1963** Opens office in El Segundo, California. CSC headquarters remain in El Segundo for 45 years.
- June 1963** Designs and implements software suite for Univac 1107 - one of the largest computers at that time.
- January & April 1964** As the first publicly traded software company, CSC is active on the Pacific and American stock exchanges, respectively.
- July 1964** Launches Computax offering, a computerized tax return service.
- April 1964** Opens new office in Washington, D.C.
- January 1965** Two divisions of ITT are acquired, making CSC the largest IT services company in the United States.
- January 1965** CSC unseats General Electric Co. to win a contract with the U.S. Atomic Commission.
- July 1966** Computer Sciences Canada, CSC's first subsidiary, is formed to extend batch computing services into Canada.
- May 1966** Based in Brussels, Computer Sciences International is formed to manage international growth. This is now known as CSC Europe.

- June 1966** Wins a five-year contract for NASA Marshall Space Flight Center.
- September 1966** Develops a payroll system for banks, selling payroll services to their business customers.
- December 1966** Announces Computicket, the first computer-based system for sports and entertainment ticket sales and management.
- November 1968** CSC becomes the first independent IT firm listed on the New York Stock Exchange.
- March 1968** Computer Sciences Institute is created, providing business professionals with education and learning about how computers and technology can modernize business operations.
- May 1968** Acquires advanced communications technology capabilities from Western Union Telegraph Co.
- January 1969** Infonet is created to operate CSC's timesharing business.
- June 1969** Teamed with RCA, CSC wins a contract to develop the U.S. Navy's Aegis weapons system, the most advanced combat system in the world.
- August 1969** CSC begins a long-term partnership with AT&T, starting with the Trunks Integrated Recordkeeping System (TIRKS), a circuit provisioning system that kept track of telephone equipment and facilities. Beginning in 1985, we began managing and implementing all software changes to this vast application system, which ran on IBM 3090 mainframes and comprised 100 databases, 24,000 modules and 6 million lines of code.
- March 1969** CSC Systems Division - the precursor to today's North American Public Sector organization - is formed by consolidating units.
- April 1969** With 4,000 employees and \$65 million in revenue, CSC celebrates its 10-year anniversary.
- November 1969** Bill Hoover is elected CSC president.

## 1970s

### Timesharing Reshapes CSC

---

- April 1970** Annual revenues exceed \$100 million.
- July 1970** CSC acquires Commonwealth Services Inc., a provider of computer technology solutions for the transportation, distribution and utilities markets.
- October 1970** CSC formally enters Australia and South Africa markets. CSC Australia starts as a joint venture between CSC and AMP Society.
- June 1971** CSC creates the first computerized air cargo system at London's Heathrow Airport.
- September 1971** Builds the first automated traffic control system for the Panama Canal.
- March 1971** CSC begins providing computer services to the U.S. Environmental Protection Agency (EPA), supporting its mission to protect human health and preserve the quality of the environment.

- July 1971** CSC builds the first airport ground traffic system's model and simulation for New York City's JFK airport, to be used nationwide and globally.
- May 1971** Computer Sciences International expands its presence, opening new offices in France, Italy, the Netherlands, the United Kingdom and West Germany.
- September 1972** CSC is awarded its first contract with the U.S. Federal Aviation Administration.
- March 1972** CSC Infonet is awarded a five-year, \$43 million contract from the General Services Administration, to provide timeshare services to every U.S. government agency.
- November 1972** Fletcher Jones, 42, the company's co-founder, dies in an airplane crash near Santa Barbara, California.
- November 1972** Bill Hoover is elected CEO and Chairman.
- August 1973** CSC wins a significant contract with NASA's Goddard Space Flight Center.
- September 1973** CSC wins a landmark facilities management contract for Orange County, California, the first local government FM contract ever awarded, laying the foundation for other local governments.
- October 1973** CSC enters financial services sector facilities management business, landing clients within the mortgage, banking and insurance industries.
- May 1975** CSC wins contract to manage and operate the County of Pierce, Washington's computer center.
- November 1975** CSC enters into an agreement to provide automated air traffic control system for West Germany.
- September 1976** CSC is awarded contracts to support the emerging U.S. Space Shuttle program at Lyndon B. Johnson Space Center (JSC) in Houston and John F. Kennedy Space Center (KSC) in Florida.
- June 1977** CSC wins contracts to support Washington, DC, and Atlanta, Georgia, Metro transportation systems.
- September 1978** PAID Prescriptions acquisition is the first of many targeted at new commercial markets and expands claims processing capabilities within the health sector.
- October 1978** CSC wins landmark California Medi-Cal (Medicaid) business, further strengthening the company's claims processing reputation.
- May 1979** CSC strengthens offerings for transportation, distribution and logistics markets through CMS Industries acquisition.
- March 1979** CSC wins its largest contract to date - a \$221 million, six-year project to supply a nationwide computer information system to the Kingdom of Saudi Arabia.

# 1980s

## Systems Integration and Commercial Growth

---

- September 1980 CSC acquires business services division of Intel Corporation, providing accounting and HR services to small businesses.
- March 1981 CSC begins its support of the Hubble Space Telescope mission at the Space Telescope Science Institute at Johns Hopkins University.
- January 1982 CSC enters credit reporting market with Associated Credit Services acquisition.
- March 1983 CSC becomes the claims processing agent for the U.S. federal government's National Flood Insurance Program.
- May 1984 CSC signs the Consolidated Data Contract (CDN) with the US Customs Service, under which we designed, built, operated and maintained (for 11 years) a nationwide network for the US Treasury Department.
- November 1985 Broadening its role in the manufacturing systems market, CSC acquires Compufact.
- May 1985 CSC begins processing health claims of coal miners for the U.S. Department of Labor's Black Lung Program, furthering its claims processing experience.
- August 1986 Computer Partners acquisition expands CSC's presence in IT consulting and professional services market.
- January 1986 CSC wins Medicaid Management Information System (MMIS) contract for State of New York.
- March 1987 First \$1 billion contract signed, with NASA's Goddard Space Flight Center.
- September 1988 Purchase of the Index Group expands CSC's management consulting business, as well as its executive education and corporate-sponsored business research programs.
- April 1988 Annual revenues hit \$1 billion.
- July 1988 Associated Credit Services subsidiary changes its name to CSC Credit Services.
- March 1988 CSC introduces a new corporate identity program and redesigns the company logo.
- January 1989 CSC creates the Leading Edge Forum to drive global leadership in Innovation, CSC's Centers of Excellence, and recognition of great achievements through the Chairman's Award for Excellence.
- June 1989 CSC strengthens its market position and doubles its revenue in Europe, with the purchase of CIG-Intersys Group, Belgium's leading IT company.

# 1990s

## A Global Outsourcing Leader

---

- April 1990** The Hubble Space Telescope is successfully launched. CSC continues to support Hubble's day-to-day operations to this day. Our astronomers were among the first to conduct research with the telescope.
- June 1990** CSC co-founder Roy Nutt dies at age 59.
- December 1990** CSC employee/astronaut Ron Parise flies on Space Shuttle Columbia Astro-1 mission.
- January 1991** CSC acquires Analytics Inc, adding services in logistics, communications and information security, mainly to the intelligence community, where CSC has numerous clients.
- November 1991** A \$3 billion agreement with General Dynamics establishes CSC as a technology outsourcing leader.
- August 1992** Following the Iraq invasion, CSC rebuilds war-ravaged Kuwait's technology lifeline.
- April 1993** CSC takes 100% ownership of CSC Australia.
- July 1993** CSC executive James Champy co-authors the groundbreaking bestseller, *Reengineering the Corporation*, with Michael Hammer.
- April 1994** CSC signs a 10-year, \$1.5 billion IT outsourcing contract in the UK with BAE Systems, one of the largest commercial IT outsourcing contracts ever awarded to a single supplier in Europe.
- May 1994** CSC signs a \$1.1 billion contract to provide comprehensive information systems support at NASA's Marshall Space Flight Center. The contract is known as Program Information Systems Mission Services (PrISMS).
- June 1993** Van B. Honeycutt is elected CSC President & COO.
- December 1994** European operations expand with acquisition of Ploenzke, AG, Germany's largest computer services company.
- March 1995** CSC astronaut Ron Parise flies aboard Space Shuttle Endeavor Astro-2 mission.
- April 1995** Upon Bill Hoover's retirement, Van B. Honeycutt is elected CEO.
- June 1996** CSC is selected to head The Pinnacle Alliance, a consortium of vendors created with J.P. Morgan to implement and operate a multibillion-dollar outsourcing agreement.
- December 1996** CSC signs a \$4 billion long-term outsourcing agreement with DuPont, one of the largest and most innovative technology agreements in history.
- April 1996** The Continuum Company acquisition increases CSC's global financial services software and business process outsourcing portfolio.
- March 1997** Van B. Honeycutt is elected CSC's Chairman of the Board of Directors.
- December 1998** The IRS selects CSC to modernize the U.S. tax system.
- September 1998** CSC successfully fights off a hostile takeover bid by Computer Associates International.
- February 1999** CSA Holdings Ltd. acquisition expands CSC's presence in Asia.
- September 1999** Nichols Research Corp. merges with CSC.

**December 1999** CSC wins a 10-year Army Logistics Modernization contract, which leads to the world's largest ERP installation.

## **2000s** Experience Shapes the Future

---

- May 2000** CSC acquires the assets of BHP IT, a wholly owned subsidiary of the Australia-based firm BHP, a global natural resources company.
- December 2000** Mynd Corporation acquisition strengthens CSC's portfolio of insurance industry solutions.
- September 2000** CSC wins award to support claims processing system for the state of New York's Medicaid program (eMedNY), the largest in the nation.
- September 2001** CSC signs a cycling team sponsorship agreement with Riis Cycling, managed by 1986 Tour de France winner Bjarne Riis.
- April 2001** Annual revenues exceed \$10 billion.
- February 2003** LMP, the CSC-led revamp of the world's largest supply chain for the U.S. Army Materiel Command, goes live as the first U.S. government outsourcing of the entire modernization and operation of a major IT system.
- March 2003** CSC acquires DynCorp, adding 26,000 employees and extending government services capabilities.
- April 2003** Mike Laphen is appointed CSC's President and Chief Operating Officer .
- May 2003** The CSC-lead Prism Alliance is awarded a landmark outsourcing contract (valued at \$2.4 billion) with the UK's Royal Mail Group.
- December 2003** Swiss Re awards CSC one of the largest insurance BPO contracts.
- July 2004** CSC wins the largest applications outsourcing contract in the insurance industry, from Zurich Financial Services.
- August 2004** The IRS receives the first release of a modernized system supported by CSC.
- May 2005** CSC wins a contract to provide shared services to NASA's John C. Stennis Space Center.
- December 2006** Datatrac acquisition increases our federal government capabilities.
- April 2007** Covansys acquisition adds 8,400 employees in India.
- May 2007** Mike Laphen is elected CSC's Chief Executive Officer.  
CSC Project Accelerate initiative is launched to deliver improved growth.
- July 2007** Mike Laphen is elected CSC's Chairman of the Board of Directors.
- October 2007** First Consulting Group purchase bolsters presence in India and Vietnam.
- January 2008** CSC announces that corporate headquarters will move from El Segundo, Calif., to Falls Church, Va.
- May 2008** Annual revenues surpass \$15 billion.
- April 2008** Corporate headquarters officially move to Falls Church, Va.

- May 2008** New CSC logo unveiled as part of global branding campaign.
- July 2008** Team CSC's Carlos Sastre wins Tour de France, capping a successful seven-year pro cycling sponsorship.
- October 2008** IT services center opens in China.
- November 2008** CSC wins contract extension to support eMedNY, which annually processes more than 350 million Medicaid claims and generates payments in excess of \$40 billion. CSC also manages the Web site, data center operations and telecommunications network.
- January 2009** CSC announces new contract to process Medicaid claims for the state of North Carolina.
- February 2009** CSC announces cloud computing initiative, continuing its legacy of innovation.
- April 16, 2009** CSC celebrates 50-year anniversary.
