**Research & Development**

Over the last decade, Enterprise Content Management (ECM) technology has made significant advances in helping life sciences companies meet critical challenges that affect the ability to bring safe drugs to market. Our ECM solutions have been at the forefront of helping life sciences organizations meet the demands of managing the proliferation of enterprise content, improving timely regulatory reporting, and minimizing the risk of noncompliance.

CSC understands that R&D organizations utilize extraordinary resources in maintaining meticulous records and complying with strict regulatory requirements. Through intuitive navigation and user-friendly commands, FirstDoc R&D helps companies simplify processes, reduce document creation and approval time, as well as address regulatory mandates that include 21 CFR Part 11 and International Conference on Harmonization (ICH) guidelines as they refer to common technical document (CTD) standards.

***FirstDoc R&D Benefits Include:***

- Organized submission-related documents in an easy-to-use and secure repository
- Streamlined submission processes
- Meets all levels of regulatory compliance
- Provides complete document creation, review, approval, storage, and retrieval functionality
- Spans the entire R&D domain area — non-clinical, clinical, quality (CMC) and regulatory
- Flexible and scalable to address all global and cross functional business processes of an R&D organization
- Easily integrates with imaging and publishing solutions
- Document inventory that includes non-clinical, clinical, quality and regulatory document types

CSC's deep domain expertise is realized through FirstDoc's ability to address typical R&D challenges such as the labor and time required in the publishing process. FirstDoc is tightly integrated with market leading publishing solutions and includes the flexibility of drag and drop integration to significantly streamline the overall publishing process.

## About CSC

The mission of CSC is to be a global leader in providing technology enabled business solutions and services.

With the broadest range of capabilities, CSC offers clients the solutions they need to manage complexity, focus on core businesses, collaborate with partners and clients, and improve operations.

CSC makes a special point of understanding its clients and provides experts with real-world experience to work with them. CSC is vendor-independent, delivering solutions that best meet each client's unique requirements.

For more than 45 years, clients in industries and governments worldwide have trusted CSC with their business process and information systems outsourcing, systems integration and consulting needs.

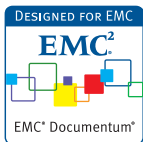

The company trades on the New York Stock Exchange under the symbol "CSC."
