

Offshore Advantage

CSC's strategic business initiative is dedicated to offer end-to-end offshore application and infrastructure services directly from India.

Building on CSC's offshore experience of supporting over 200 global clients in India for more than sixteen years, CSC brings together, dedicated American and European teams with proven capabilities, to provide application and infrastructure services from offshore directly.

This approach combines highly skilled domain and technology expertise with effective and efficient process rigour. It integrates CSC's mature quality processes with proven expertise in program management to provide services that are recognised as the best in class – all at an offshore price point.

Backed by the benefit of its global experience in delivering large and complex offshore projects - with investments in delivery centres across seven locations in India - CSC in India offers services that address all stages of your business and IT lifecycle.

As an agile and collaborative model, CSC not only deploys teams of highly skilled IT professionals and seasoned business analysts with extensive industry experience who are trained to deliver results, but also integrates the India delivery teams with the global onsite teams to provide a 24x7 service delivery and time-to-market advantage.

CSC seamlessly transitions IT functions offshore to India using processes that conform to the highest BS 7799/IEC 27001 compliance standards. This is coupled with the management's commitment to strong business ethics in protecting client information and intellectual property.
