CSC NAMES LEE FOGLE TO HEAD SALES TO PROPERTY AND CASUALTY INSURANCE INDUSTRY

EL SEGUNDO, Calif., July 10 – Computer Sciences Corporation (NYSE: CSC) today announced that Lee Fogle has joined the company as vice president of Sales for the property and casualty (P&C) insurance market in the Americas. He reports to Ray August, president of the P&C Insurance division within CSC’s Financial Services Sector.

Fogle will provide executive leadership and strategic direction to the company’s P&C carrier market sales force, which represents CSC’s P&C-specific business process outsourcing services and application software, including Exceed, POINT IN and Claims and Legal Solutions. More than 700 organizations worldwide rely on CSC’s P&C software and outsourcing solutions to support growth and create new sources of business value.

An insurance software industry veteran and a certified claims adjuster, Fogle has 25 years of experience. Most recently, he served as senior vice president of Sales and Services at Duck Creek Technologies, where he helped establish national product and services operations. Previously, he spent six years at ISO as president of a claims division and Corporate vice president. He also held sales and management positions with Policy Management Systems Corp. and won Sales Representative of the Year in 1990 and Sales Manager of the Year in 1995.

“Lee has the industry knowledge and relationships we want to lead our sales force, generate rapid growth and help deliver improved business results for carriers,” said August. “With his background and experience, he will be a great addition to the CSC family and our customer communities.”

About CSC

Computer Sciences Corporation is a leading global information technology (IT) services company. CSC’s mission is to provide customers in industry and government with solutions crafted to meet their specific challenges and enable them to profit from the advanced use of technology.

With approximately 87,000 employees, CSC provides innovative solutions for customers around the world by applying leading technologies and CSC’s own advanced capabilities. These include systems design and integration; IT and business process outsourcing; applications software development; Web and application hosting; and management consulting. Headquartered in El Segundo, Calif., CSC reported revenue of \$14.9 billion for the 12 months ended March 30, 2007. For more information, visit the company's Web site at www.csc.com.
