Legal Solutions Suite — Now Faster, Easier to Use

CSC's Legal Solutions Suite® software, used by more than 7,000 law firms to submit invoices electronically over the Web, is designed to simplify the billing process, track outside counsel performance and promote best practices in managing legal matters. Its three components — Legal e-Bill, Legal Bill Analyzer and Legal Matter Manager — work together to create an end-to-end legal management process for:

- Case planning and strategy
- Legal bill auditing and analysis
- Budgeting and staffing
- Electronic billing
- Document management
- Meaningful management reports
- Law firm profiles and performance evaluation.

Legal Solutions Suite was tested in CSC's Usability Lab to ensure that it is the most-user friendly product on the market. CSC's specialized lab is designed to measure users' reaction to software applications in a controlled one-on-one testing environment. The testing administrator records the physical movements and verbal observations of software users, evaluates responses and follows up with recommendations for improvements.

In addition to installing Legal Solutions Suite in-house, CSC clients can take advantage of the industry's widest range of deployment options. CSC offers Legal Solutions Suite as a cloud computing-compliant application. This unique hosting option enhances the software's infrastructure with the scalability of a pay-as-you-go business model. The proven reliability of cloud computing gives companies the flexibility to increase or decrease usage without changing the system's design or environment.

Used by leading insurance companies to manage claims-related litigation, Legal Solutions Suite also helps corporate legal departments manage a wide variety of legal matters. And a growing number of self-insured organizations and risk pools are turning to Legal Solutions Suite, which integrates with CSC's RISKMASTER, the industry's most comprehensive claims and risk management software. Legal Solutions Suite also integrates with CSC's insurance systems, Exceed® and POINT IN®.

Legal Solutions Suite Highlights:

Third-Party Expense Entry: Allows users to attach third-party receipts through the system. This function provides managers with “total outcome” reporting capabilities.

Enhanced Workflow: A redesigned workflow in Matter Manager improves the end-user’s experience. This screen layout allows claim handlers, attorneys, and billing personnel to access and utilize key information in a timely and efficient manner.

Integration: Full integration with CSC’s RISKMASTER® software. The back and forth communication between the two products increases productivity while allowing for industry best practices.

Adjuster Dashboard: The dashboard allows adjusters to easily manage their day-to day workflow, resulting in less manual administration.

Usability Enhancements: Legal Solutions Suite, developed by legal professionals and supported by one of the world’s leading information technology firms, gives organizations a secure, collaborative workspace that streamlines interactions with outside counsel. And now, with usability enhancements, the system is even easier to use.

For more information about Legal Solutions Suite call CSC at 800.345.7672 or send an e-mail to inforequests@csc.com.

About CSC

The mission of CSC is to be a global leader in providing technology enabled business solutions and services.

With the broadest range of capabilities, CSC offers clients the solutions they need to manage complexity, focus on core businesses, collaborate with partners and clients, and improve operations.

CSC makes a special point of understanding its clients and provides experts with real-world experience to work with them. CSC is vendor-independent, delivering solutions that best meet each client’s unique requirements.

For more than 45 years, clients in industries and governments worldwide have trusted CSC with their business process and information systems outsourcing, systems integration and consulting needs.

The company trades on the New York Stock Exchange under the symbol “CSC.”

About CSC in Financial Services

CSC provides mission-critical business solutions, consulting and outsourcing services to leading financial services firms around the world.

We bring more choices to the industry. We help clients plan for business and technology change. We create software, tools and processes to address specific business needs, and we continually enhance those solutions by collaborating with an extensive network of client communities and technology partners.

Our global outsourcing operations give us real-world insight into business and IT processes that deliver the best results for our clients. More than 1,200 major banks, insurers, and investment management and securities firms rely on the experience, ingenuity and leadership of more than 10,000 CSC employees focused on financial services.
