

CSC

# LEGAL SOLUTIONS SUITE CORPORATE

## AT A GLANCE

- Accelerate Approval Workflow
- Streamline Bill Payment
- Provide Clear Audit Trails
- Automate Location-Specific Tax Calculations
- Convert Multiple Currencies Quickly

With both outside legal costs and caseloads on the rise, corporate legal and general counsel offices are doing increasingly more with less. And getting the best possible outcome is one of many responsibilities.

Corporations spend millions of dollars on outside counsel and other legal fees every year, but too often legal invoices are delayed in the approval chain, duplicate payments are issued, and billing errors are allowed to slip through unnoticed. Companies with international operations must manage the impact of foreign tax laws, currency exchange rates and multiple general ledger systems.

CSC's Legal Solutions Suite® Corporate software can automate all of your legal bill payment tasks, help you monitor your legal spending and accelerate the overall process. This easy-to-use Web-based system manages and documents your approval process, automates international tax and currency calculations, and enables multinational companies to centralize e-billing on a single system.

### **Streamline Billing on the Web**

More than 7,500 law firms use Legal Solutions Suite to submit electronic invoices over the Web. Other automated features of the Legal Solutions Suite Corporate version include:

- Currency conversion
- Tax calculations for international bills
- Allocation of expenses and charges to appropriate departments
- Complex approval workflows
- Real-time integration with general ledger systems
- Comprehensive reporting and dashboards
- Optional interfaces with your customers' accounting systems.

### **Leverage Your Data with Reports and Dashboards**

Legal Solutions Suite Corporate gathers information from all accounting systems across your caseloads. The system provides standard and ad hoc reporting on details such as amounts invoiced and paid. Additional dashboards are available through CSC's Business Analytics component to help you make better-informed decisions, improve processes and develop metrics for managing them.

### **Take a Smarter Approach to Legal Spending**

Legal Solutions Suite Corporate simplifies bill payment by helping to eliminate errors and inappropriate charges as invoices are submitted electronically by your outside counsel. It helps ensure law firms are

adhering to your fee guidelines for charges stemming from all types of legal matters including:

- Personal injury
- Product warranty
- Workers' compensation
- Disgruntled claimants
- Employee hiring/discrimination
- Wrongful hiring
- Service delivery disputes
- Contracts
- Partnerships
- Equity/debt arrangements
- Class actions
- Mergers and acquisitions
- Bankruptcies.

Key features and benefits:

**Multi-Currency Capabilities**

Process and pay invoices submitted in any currency with automated conversion of invoices and payments using current exchange rates.

**Expense Allocation**

Allocate invoices to the appropriate divisions and individuals within your organization.

**Full Integration**

Interface directly with any front-end matter setup application and back-end accounts payable system to increase productivity and eliminate duplicate entry.

**General Ledger Dashboard**

View your overall legal spend at a high level to monitor key performance indicators and reveal potential areas of improvement.

**Multi-Tiered Approvals**

Automate invoice flow through applicable departments to ensure proper approval, accountability, auditability and payment processing.

**Get Comprehensive Legal Management Services**

If you ever need more support than software can provide, look no further. CSC offers comprehensive legal management expertise. We have reviewed billions of dollars in legal fees for corporations, insurers, banks, financial institutions and government agencies. Our staff of experienced attorneys, claims and legal professionals, and risk managers can provide you with a full array of services:

- Legal bill review
- Legal efficiency review
- Audits
- Bankruptcy fee consulting
- Expert opinion and testimony
- Training and guideline development.

**Join an Industry-Leading Customer Community**

Through CSC's client community, our users are committed to active product enhancement and face-to-face collaboration during the annual conference and users' group meetings. Additionally, we offer WikonnecT, our award-winning business-to-business social network that surrounds the community with 24x7 support, information and familiar networking activities such as blogs and polls focused on user topics.

Legal Solutions Suite Corporate was designed and built by a team of CSC clients, attorneys, and expert legal professionals with more than 20 years of outside counsel management experience. It's more than just a software tool. It helps organizations create a highly efficient legal e-billing management process.
