

CSC

LEGAL SOLUTIONS SUITE LIFE AND ANNUITY

AT A GLANCE

- Access and Analyze Data Quickly with Real-Time Reports
- Accelerate Approval Workflow
- Streamline Bill Payment
- Provide Clear Audit Trails
- Automate Location-Specific Tax Calculations
- Convert Multiple Currencies Quickly

With both outside legal costs and caseloads on the rise, corporate legal and general counsel offices are doing increasingly more with less. And getting the best possible outcome is one of many responsibilities. Without an easy way to access data or create reports, it's hard to know where to focus attention.

Corporations are spending millions of dollars on outside counsel and other legal fees every year, but too often legal invoices are delayed in the approval chain, duplicate payments are issued, and billing errors are allowed to slip through unnoticed. Companies with international operations must manage the impact of foreign tax laws and currency exchange rates.

CSC's Legal Solutions Suite® can help you make better-informed decisions, improve processes and develop metrics for managing them. Its real-time Business Analytics reporting tool provides comprehensive management reporting and dashboards. The easy-to-use Web-based software automates all of your legal bill payment tasks, helps you monitor your legal spending and accelerates the overall process. It also manages and documents your approval process, automates international tax and currency calculations, and enables multinational companies to centralize e-billing on a single system. Legal Solutions Suite is the industry's leading end-to-end litigation management solution.

Streamline Billing on the Web

More than 7,500 law firms use Legal Solutions Suite to submit electronic invoices over the Web. Other automated features of Legal Solutions Suite include:

- Currency conversion
- Tax calculations for international bills
- Allocation of expenses and charges to appropriate departments
- Complex approval workflows
- Real-time integration with general ledger systems
- Comprehensive reporting and dashboards
- Optional interfaces with your customers' accounting systems.

Leverage Your Data with Reports and Dashboards

Access to real-time data is essential for quickly identifying areas that need attention. Companies need to not only capture the right metrics but also pull them together in a way to make intelligent decisions about law firm assignments, budgets and the disposition of legal matters. With Legal Solutions Suite, managers can easily get their hands on the data they need without involving the IT department. They can drill down and get powerful data in seconds, instead of weeks.

The software gathers information from all accounting systems across your caseloads. The system provides standard and ad hoc reporting on details such as amounts invoiced and paid. Additional dashboards are available.

Take a Smarter Approach to Legal Spending

Legal Solutions Suite simplifies bill payment by helping to eliminate errors and inappropriate charges as invoices are submitted electronically by your outside counsel. It helps ensure law firms are adhering to your fee guidelines for charges stemming from all types of legal matters including:

- Contracts
- Mergers and acquisitions
- STOLI litigation
- Workers' compensation
- Disgruntled claimants
- Employee hiring/discrimination
- Wrongful hiring
- Service delivery disputes
- Partnerships
- Equity/debt arrangements
- Class actions
- Bankruptcies.

Key features and benefits:

Multi-Currency Capabilities

Process and pay invoices submitted in any currency with automated conversion of invoices and payments using current exchange rates.

Expense Allocation

Allocate invoices to the appropriate divisions and individuals within your organization.

Full Integration

Interface directly with any front-end matter setup application and back-end accounts payable system to increase productivity and eliminate duplicate entry.

General Ledger Dashboard

View your overall legal spend at a high level and monitor key performance indicators that reveal potential areas of improvement.

Multi-Tiered Approvals

Automate invoice flow through applicable departments to ensure proper approval, accountability, auditability and payment processing.

Get Comprehensive Legal Management Services

If you ever need more support than software can provide, look no further. CSC offers comprehensive legal management expertise. We have reviewed billions of dollars in legal fees for corporations, insurers, banks, financial institutions and government agencies.

Our staff of experienced attorneys, claims and legal professionals, and risk managers can provide you with a full array of services:

- Legal bill review
