AT A GLANCE

- Lower Costs and Risks Associated with System Replacement
- Get a Faster Return on IT Investments
- Quickly Support Business Initiatives with New Solutions
- Manage Priorities and Time Frames for Implementing Business Functions
- Support Long-Term Strategy

Modernize Your Systems — One Step at a Time

Insurance carriers are faced with IT challenges that can only be addressed through modernization. Legacy portfolios and aging systems can adversely impact your ability to quickly capitalize on new opportunities and compete in the market, but in today's economic climate, it's becoming more difficult to build a case for replacing core systems.

CSC's modern service-oriented architecture (SOA) approach can help you incrementally modernize to meet these challenges and improve business performance. We offer a way for you to quickly benefit from our core administration systems without having to rip out and replace your old systems.

Streamline the Implementation Process

CSC's services and software enable you to implement specific functions to meet your immediate business needs — such as rules and implementation tools, the scheduling of payments or the generation of policy numbers across all of your systems — while still offering the benefits of our tightly pre-integrated software products.

CSC provides SOA and system integration services, coupled with highly specific, reusable business services, allowing you to control the priority and pace of system modernization with an incremental, function-by-function implementation approach.

Benefit from Proven Enhancement and Delivery Programs

CSC understands the importance of leveraging the systems you already have in place. We offer a business-driven and holistic approach designed to optimize for the present as well as the future.

We begin by confirming and refining your business objectives, assessing the current state and then developing a modernization roadmap as a guide.

Get Comprehensive Services and Support

CSC's approach to enabling business value includes:

- Broad SOA architecture and integration services and tools
- Business-driven software enhancement and development through CSC's Innovation Community program
- CSC's ongoing investment in enhancing our software
- CSC's Continuous Delivery processes enabling you to implement only the features you need
- Rich P&C software functionality
- Consulting services that include a modernization assessment, business and IT strategy alignment and development of modernization roadmaps.

Take the First Step Toward Modernization

Regardless of where you are in the process of modernization, CSC can help tailor your initiative and ensure that it's aligned with your current environment and your business goals for the future.

About CSC

The mission of CSC is to be a global leader in providing technology-enabled business solutions and services. With the broadest range of capabilities, CSC offers clients the solutions they need to manage complexity, focus on core businesses, collaborate with partners and clients, and improve operations.

CSC makes a special point of understanding its clients and provides experts with real-world experience to work with them. CSC is vendor-independent, delivering solutions that best meet each client's unique requirements.

For more than 45 years, clients in industries and governments worldwide have trusted CSC with their business process and information systems outsourcing, systems integration and consulting needs. The company trades on the New York Stock Exchange under the symbol "CSC."

About CSC in Financial Services

CSC provides mission-critical business solutions, consulting and outsourcing services to leading financial services firms around the world. We bring more choices to the industry. We help clients plan for business and technology change. We create software, tools and processes to address specific business needs, and we continually enhance those solutions by collaborating with an extensive network of client communities and technology partners. Our global outsourcing operations give us real-world insight into business and IT processes that deliver the best results for our clients.

More than 1,200 major banks, insurers, and investment management and securities firms rely on the experience, ingenuity and leadership of more than 10,000 CSC employees focused on financial services.
