SECTION C DESCRIPTIONS AND SPECIFICATIONS

23 January 2007

STATEMENT OF WORK

FOR

PROGRAM MANAGEMENT SUPPORT TO THE

NAVAL FACILITIES ENGINEERING COMMAND

INFORMATION ASSURANCE PROGRAM

1.0 BACKGROUND: For the past several years, NAVFAC CIO and NETWARCOM, in response to ongoing security threats and attacks, has aggressively pursued a variety of information assurance efforts aimed at protecting the Navy's IT infrastructure and assets and increasing the IA awareness and skills levels in its workforce. The Navy Cyber Assets Security Reduction & Security (CARS) initiative is an effort to further reduce the portfolio of applications, legacy networks and servers and to "re-home" specified IT assets behind Information Assurance infrastructure provided by the Navy Marine Corp Intranet (NMCI) or select "trusted" regional enclaves. Overarching Information Assurance training and certification requirements that apply to NAVFAC are outlined in DOD Instruction 8570.1M.

NAVFAC CIO's plan to accomplish the required reductions in applications and infrastructure is to be accomplished by a variety of carefully choreographed, integrated and inter-dependent activities. NAVFAC legacy applications and assets must be continuously supported and secured in accordance with NETWARCOM policy and the DOD Information Technology Security Certification Accreditation Process (DITSCAP) as they transition from legacy environments into NMCI or other approved enterprise environments. NAVFAC IT infrastructure, applications, systems networks and workforce must satisfy NETWARCOM and Federal Information Security compliance goals in order to prevent service interruptions and/or shut-downs of an application, network, circuit, and/or user account.

2.0 SCOPE: This Statement of Work (SOW) addresses the information assurance technical services required as follows:

IA Program Management Tasks:

- Work with Assistant CIO for IA to define and document IA business processes.
- Provide technical and application support to field component IA workforce and Program Management team members. This may be in the form of training or process improvement coverage.
- Coordinate IA strategies and planning efforts at the direction of the Assistant CIO for IA.
- Coordinate with Field IAM on Navy Firewall Compliance tasks
- Assist CIO in administration and tracking of NAVFAC User Awareness Training
- Provide quality assurance review and tracking for all System Security Authorization Agreement (SSAA) documents in accordance with prescribed by NETWARCOM guidance for all NAVFAC applications, systems, servers, and networks by 30 September 2007.

CONTRACT NO. N00178-04-D-4030	DELIVERY ORDER NO. JU01	PAGE 4 of 12	FINAL
----------------------------------	----------------------------	-----------------	-------

- Support CIO in the accurate reporting of FISMA data to DON in prescribed formats and timeframes
- Assist CIO in working/resolving Personally Identifiable Information (PII) issues, incident and/or data calls.
-

IA Program Management Application Initiatives

- Manage and update the content of the IA Application, which resides on the NAVFAC Portal.
- Provide ongoing IA technical support to NAVFAC Information Assurance Managers on the execution, management, and tracking of Information Assurance Vulnerabilities and NETWARCOM tasking, including the development of IAM standardized procedures for IAVM Management.
- Work with NAVFAC Assistant CIO for IA personnel in the development of briefs, presentations, and other reporting instruments for IA Application initiatives.
- Prepare NAVFAC HQ updates to field activities regarding IA Application compliance issues, status, (such as e-mails, telephone contacts), and correspondence as required to provide effective command-wide program communication.

Business Process Enhancement Support

- Work with the NAVFAC Information Assurance Managers (IAMs) to document solutions and develop and maintain a method for their dissemination.
- Work with the IA Application workforce points of contact/team members to define specific IA Application business processes, which can be modified/tailored to optimize command resources while complying with Navy/NMCI/NAVFAC program requirements

3.0 SKILL SET: Strong oral and written communication skills and Project management expertise.

4.0 LEVEL OF EDUCATION/EXPERIENCE: A minimum of five years of demonstrated experience in providing technical support for large Information Assurance and/or Information Security programs is required. Specialized expertise working with Federal and/or Defense Information Assurance, DITSCAP, FISMA and/or CISSP certification is highly desirable.

5.0 PERIOD OF PERFORMANCE: The period of performance is one year from notice to proceed with three option years.

6.0 PLACE OF PERFORMANCE: NAVFAC Headquarters, Washington, D.C.
