CSC SIGNS CONTRACT EXTENSION WITH AXA INSURANCE TO RENEW COLOSSUS LICENSE

ALDERSHOT, UK, 28 September 2009 – CSC (NYSE: CSC) announced today that AXA Insurance, a major UK insurer, has extended its licence of CSC's Colossus personal injury claims assessment solution for an additional three years.

Used by eight of the largest insurers in the UK and Ireland, including four of the top seven UK insurers, and 13 of the top 20 US insurers, Colossus is a leading system for helping claims handlers evaluate personal injury claims fairly and consistently. During the past nine months, CSC and AXA have integrated Colossus into AXA's in-house claims system to provide optimum data integrity as well as simplified and quicker processing. In addition, the latest version of Colossus has improved features to accelerate the assessment process.

“AXA is committed to dealing ethically and quickly with all legitimate claims for compensation made against our customers,” said David Williams, managing director of Claims for AXA Insurance. “Our work with CSC to integrate Colossus further into our claims process enhances our ability to meet this objective, enabling us to assess compensation fairly and efficiently.”

“The AXA Group and CSC have worked together for more than a decade, designing and implementing business solutions for AXA Group operations throughout Europe, Asia Pacific and the United States,” said Steve Mitchener, president of CSC's Financial Services Group in Europe, the Middle East and Africa. “This contract renewal is testament to the strength of our relationship and the significant business benefits AXA Insurance has received from our Colossus solution.”
