

# ACCELERATE SOA FOR MAXIMUM IMPACT ACROSS YOUR ORGANIZATION

“SOA is right for our business, but **how fast** can we see some results.”

## Why SOAsure?

SOAsure is CSC’s proven end-to-end approach to creating a service-oriented architecture that enables your enterprise to respond rapidly to market changes with new products and services.

Consisting of a set of seven services that address the entire SOA lifecycle, SOAsure uses proven tools, processes, methodologies, and accelerators to assure cost-effective development, maintenance, and support. SOAsure also offers a variety of entry points. So wherever you are in the process of considering or implementing SOA, you can be confident that SOAsure services are aligned with the needs of your unique business environment. That’s why we call it SOAsure.

### The Entire Family of SOAsure Services

- Consultative Services
- Enablement Centers
- Accelerated Business Transformation
- Business-Driven Modernization
- Enterprise Resource Planning
- Foundations
- Operational Services

Early success is a critical factor in achieving maximum impact for service-oriented architecture (SOA) activities over the long term. CSC SOAsure Enablement Centers were created to bring you that winning equation, through a comprehensive suite of services designed to accelerate and maximize your SOA implementation and results.

Consisting of three supporting and four governing elements, our standard suite of enabling services brings stakeholder communications and training, in addition to a high level of governance that also incorporates driving new industry innovations into your organization.

By helping you take charge of the process of change and maximizing every advantage, our goal is to become a trusted partner as you grow and leverage your technology investments.

## One-Stop Shopping for SOA Success

SOA isn’t just about technology; it’s about helping your organization at all levels to leverage its strengths, and to drive up value while driving down costs. Our SOAsure Enablement Center’s standard offering propels your enterprise’s SOA success via:

### • Demand Generation and Outreach

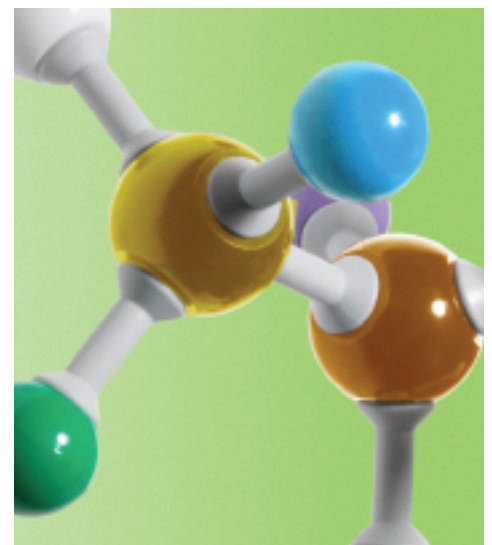

We help you raise awareness of the features and benefits of SOA among customers and stakeholders through outreach and communications.

### • Training and Knowledge Exchange

We offer both self-paced and instructor-led training, enabling “in-context” learning, and facilitating knowledge exchange among SOA community participants.

### • Implementation Facilitation and Support

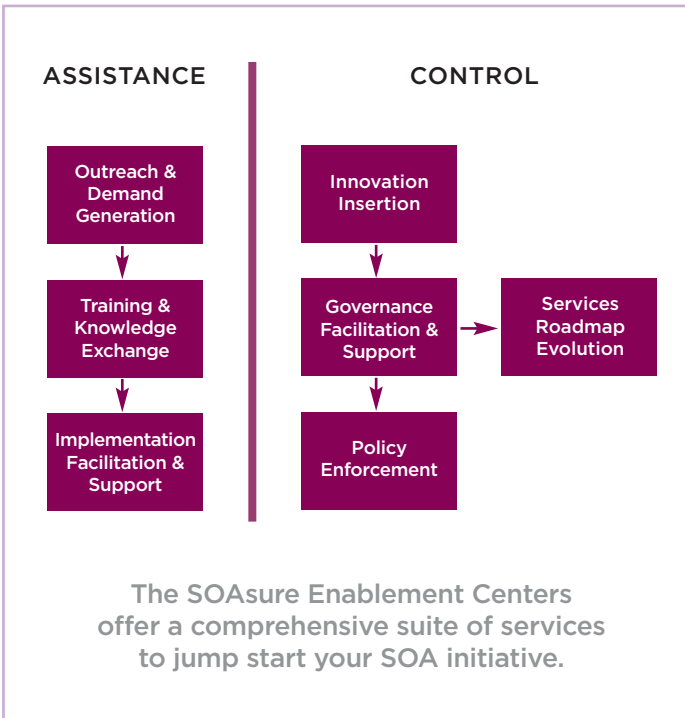

We provide a rich implementation support capability that enables federated development and certification of services via “service factories” to accelerate enterprise service provisioning and to facilitate change management.

### • Innovation Insertion

We collaborate with stakeholders, participate in industry innovation forums, harvest ideas and industry experience, and drive new innovations into the enterprise’s SOA implementation.

- **Governance Facilitation and Support** We enable balanced enterprise SOA governance by facilitating and supporting top-down governance bodies and by fostering bottom-up governance through mutual consensus among SOA stakeholders.
- **Services Roadmap Evolution** We develop and maintain the architecture, transition plan, and impact of changes on your enterprise service capabilities, supporting stakeholders, and SOAsure enablement activities.
- **Policy Enforcement** We implement policies established through governance forums, ensuring that they are enforced at “Design Time,” “Run Time,” and “Change Time” policy enforcement points.

CSC's SOA Enablement Center (or Center of Excellence) has direct access through the CSC SOA Knowledge Exchange Community to more than 3000 CSC SOA industry experts, architects, engineers and programmers worldwide.

### Raising the Bar

With early success, the impact of SOAsure Enablement Center services sends ripples across your organization. SOA implementation is streamlined and accelerated. SOA improvements

### CASE STUDY

The U.S. Army used a SOAsure Enablement Center to provide end-to-end logistics business process services to its Global Combat Support System-Army Product Lifecycle Management Plus (PLM+) program. PLM+ and its move to SOA is enabling data integration across the enormous Army logistics domain with consistent data tracking. Using real data, its demonstration effort was successful and has already saved the Army money by identifying misdirected shipments. These services are now deployed for wider use.

come more quickly. Your stakeholders feel empowered. Decision-making becomes sharper and timelier. Most importantly, when the impact and value of SOA is fully recognized, your stakeholders will realize that they can achieve much more. With SOAsure, you'll raise the bar of performance and set higher goals, confident that you'll reach and surpass them.

With early success, maximum impact, and a trusted partnership as our primary goals, we help you attract customers, empower stakeholders, and streamline and accelerate your SOA implementation.

SOAsure Enablement Centers are designed to speed your SOA improvements, to sharpen your SOA decision making, and to inspire achievement of your goals via service improvements, while protecting stakeholder interests throughout the process.

Accelerate your results...with CSC SOAsure Enablement Centers.
